

Aman Kumar

Senior Software Development Engineer in Test

Bengaluru, India · theamansingh.ak@gmail.com · +91 8269543620 · linkedin.com/in/aman-kumar-2a809753 · github.com/codedbyaman

< **Pivot Polaris Prize** — Recognised as Best Performer at ZopSmart Technologies — awarded for outstanding contribution to quality engineering and delivery excellence.

PROFESSIONAL SUMMARY

Senior SDET with 5+ years of experience in quality engineering (QA) for large-scale retail platforms. Supporting Kroger Technology across iOS, Android, Web, and API automation used by millions of shoppers.

PROFESSIONAL EXPERIENCE

Senior Software Development Engineer in Test (SSDET)

July 2021 – Present
Bengaluru, India

ZopSmart Technologies Pvt. Ltd. · Client: Kroger Technology (USA)

- Designed, developed, and maintained scalable automation frameworks for iOS and Android applications using Appium, XCUITest, Espresso, Java, Kotlin, and Swift
- Built and executed end-to-end automation suites for critical customer journeys — improving regression coverage and release confidence
- Automated UI, API, and integration test scenarios using Rest Assured, reducing manual testing efforts and accelerating release cycles
- Collaborated closely with Product Managers, Developers, Business Analysts, and QA teams in Agile/Scrum environments
- Integrated automated test suites into CI/CD pipelines using Jenkins and GitHub Actions for continuous quality validation
- 5+ years supporting Kroger Technology initiatives across multiple iOS and Android teams
- Automated critical customer journeys used by millions of retail customers across the USA
- Built and maintained scalable mobile automation frameworks supporting enterprise applications

Appium · XCUITest · Espresso · Java · Kotlin · Swift · Selenium WebDriver · Rest Assured · Jenkins · GitHub Actions

System Engineer

July 2016 – June 2020
Bengaluru, India

Zn Retail (ZopNow)

- Supported application operations, system maintenance, and deployment activities
- Collaborated with engineering and QA teams to ensure stable application releases
- Assisted in troubleshooting production issues and validating software quality across environments
- Contributed to process improvements for deployment and release management
- Gained foundational expertise in e-commerce application quality and operations
- Supported multiple successful product releases across development environments

System Administration · Application Deployment · QA Validation · Troubleshooting

System Administrator

June 2015 – June 2016
India

Moonlander E-Commerce

- Managed IT infrastructure, system administration, and technical support activities
- Supported deployment processes and environment maintenance for development and QA teams
- Provided technical support for internal teams and maintained system stability
- Maintained high system uptime supporting business-critical e-commerce operations

System Administration · IT Infrastructure · Technical Support · Environment Management

TECHNICAL SKILLS

Programming Languages:

Java · Kotlin · Swift · JavaScript · Bash/Shell

Automation Testing:

Appium · XCUITest · Espresso · Selenium WebDriver · Rest Assured · XCTest

Mobile Testing:

iOS Testing · Android Testing · API Testing · Accessibility Testing · Performance Testing · A/B Test Validation

Frameworks & Tools:

Page Object Model · TestNG · JUnit · Postman · JIRA · TestRail

CI/CD & DevOps:

Jenkins · GitHub Actions · Fastlane · Git · Docker · Xcode Cloud

AI Tools:

GitHub Copilot · Claude AI · ChatGPT · Cursor AI · Gemini · LLM-Assisted QA

Cloud & Platforms:

BrowserStack · Sauce Labs · Firebase Test Lab · AWS Device Farm · TestFlight · Android Emulator

EDUCATION

Master of Business Administration (MBA)

Pursuing

2024 – Present

KEY PROJECTS

UiTestify — Android Testing Lab

<https://github.com/codedbyaman/UiTestify>

The most starred repo on the profile. A comprehensive Android app built with Kotlin and Jetpack Compose specifically for practising and writing UI test cases using Espresso, Compose Test APIs, and accessibility best practices.

Stack: Kotlin, Jetpack Compose, Espresso, Compose Test API, Material 3, AndroidX Testing, Accessibility

UiTestify-iOS — XCUITest Practice App

<https://github.com/codedbyaman/UiTestify-iOS>

A lightweight iOS application designed for learning and practising UI testing with XCUITest. Simulates a real quiz flow with timed interactions, score calculation, and proper accessibility identifiers for test targeting.

Stack: Swift, UIKit, XCUITest, Accessibility Identifiers, Xcode 14+

AppiumTestify — Mobile Automation Framework

<https://github.com/codedbyaman/AppiumTestify>

A structured Appium 2.0 automation framework with Java, Selenium, TestNG, and Maven. Features programmatic Appium server startup and automated emulator launching — eliminating all manual setup steps.

Stack: Java, Appium 2.0, Selenium, TestNG, Maven, Android, Page Object Model

AI Dev Playbook — QA & Developer Edition

<https://github.com/codedbyaman/ai-dev-playbook>

The complete AI Engineering Playbook for Developers and QA Engineers. Structured guides for collaborating with AI coding assistants — Claude, ChatGPT, Gemini, Cursor, and GitHub Copilot — to produce reliable, production-quality output.

Stack: Claude Code, ChatGPT, Gemini CLI, GitHub Copilot, Cursor AI, AI-Assisted QA
